

# Swingaway Lateral Supports

## Sitting

This new innovative design of swingaway lateral support enables ease of transfer into and out of a wheelchair and CAPS II Seating System. With a unique locking system, the support is held securely in place.

The kit can be easily be fitted to a wide range of wheelchair backrest tubes and can be fitted to our seating system with the minimum of effort. The split clamp assembly ensures installation time is minimised while still maintaining a high level of adjustment and support.

### Size Information

A range of sizes is available. Please see our data sheet 'Wheelchair Lateral Supports' for sizes and positioning of the lateral support. They are available to suit all sizes of CAPS II Seating System.

*The single catch allows the lateral to be easily disengaged.*

*The lateral support can then be moved aside for ease of transfer.*

### Compatibility

The Swingaway Lateral Supports are suitable for use on all CAPS II Seating Systems and most wheelchairs that have backrest tubes whose diameter is either 3/4" or 7/8". They are fitted easily to the CAPS II without having to remove existing components on the seat. The split clamps ensure fitting to wheelchair backrest tubes is just as simple.

### Additional Information

Please see our data sheet 'Wheelchair Lateral Supports' for further information on lateral pad sizes, and positions that are available.

### Kit Contents

The Swingaway Lateral Support comprise of the following items:

- Unique support and locking assembly bracket
- 7/8" split clamp
- 3/4" clamp
- High-tensile steel support bar
