

CAPS II SEATING

CAPS II Seating

Modular Seating

CAPS II

The CAPS II Seating System has set the standard in special seating for many years. It is the only seating system whose design is a direct result of research into postural management. Now with a number of improvements and enhancements, the CAPS II still provides the durability and strength you expect, but with improved aesthetics, functionality and customisable options.

Key Features

- Sacral support works with the carefully designed kneeblock to maintain pelvic position
- Possible to integrate foam carve cushions into the seat base and lynx into the backrest.
- Highly adjustable thoracic lateral and pelvic lateral supports help to provide trunk symmetry
- The strong integral framework provides reliability and durability
- Seat depth adjustment allows growth in the seating system to allow a perfect fit
- The flexibility of the design enables the most challenging clinical requirements to be met
- A stable sitting base and ramped cushion support the femora in a horizontal position.

Order Process

We've worked hard to make the ordering process simple, while giving a range of highly-configurable options. To order:

- Simply specify the client measurements on the prescription form. We can decide on the optimum seat size to give maximum adjustment whilst fitting on to an appropriate wheelbase.
- Combination sizes can be manufactured in order to optimise growth, for example a Junior seat with Teenage back height.
- We can manufacture a wide range of special and bespoke components. If you have a particular problem of solution in mind, we can help develop your design.
- Customise the system further by specifying sizes of components on the prescription form.

Main Options

Nominal Size Information

Part No.	Description	Width	Depth	Back
B10/20	MiniCAPS Seating System A1	12"	11"	13"
B10/22	MiniCAPS Seating System A2	12"	12"	13"
B10/24	MiniCAPS Seating System A3	12"	13"	14"
B10/30	MiniCAPS Seating System B1	13"	12"	14"
B10/32	MiniCAPS Seating System B2	13"	13"	14"
B10/34	MiniCAPS Seating System B3	13"	14"	15"
B10/40	MiniCAPS Seating System C1	14"	14"	15"
B10/42	MiniCAPS Seating System C2	14"	15"	16"
B10/44	MiniCAPS Seating System C3	14"	16"	17"
B10/50	MiniCAPS Seating System D1	15"	15"	16"
B10/52	MiniCAPS Seating System D2	15"	16"	17"
B10/54	MiniCAPS Seating System D3	15"	17"	18"
C10/30	CAPS II Seating System Child	14"	15"	16"
C10/40	CAPS II Seating System Junior	15"	17"	17"
C10/45	CAPS II Seating System Junior Plus	16"	17"	18"
C10/50	CAPS II Seating System Teenage	17"	19"	20"
C10/55	CAPS II Seating System Teenage Plus	18"	19"	21"
C10/60	CAPS II Seating System Adult	19"	20"	22"
C10/65	CAPS II Seating System Adult Plus	20"	20"	23"

As a company we are committed to promoting a 24 hour approach to postural management. The design of our equipment is based on a thorough understanding of the theoretical and practical requirements of the management of posture.

By investing in technology, and being clever with our manufacturing processes, we are able to keep our costs down so we can provide great products at great value to our customers.
