

# FUSION SEATING

# Fusion Seating

Modular Seating

Fusion

The Fusion Seating system is Active Design’s new seating system that offers a large range of options and customisation. It is made to your specification using the latest in digital fabrication techniques, resulting in excellent quality and a quick turnaround. A streamlined ordering process with our step-by-step prescription form allows quick component selection to suit your client’s needs.

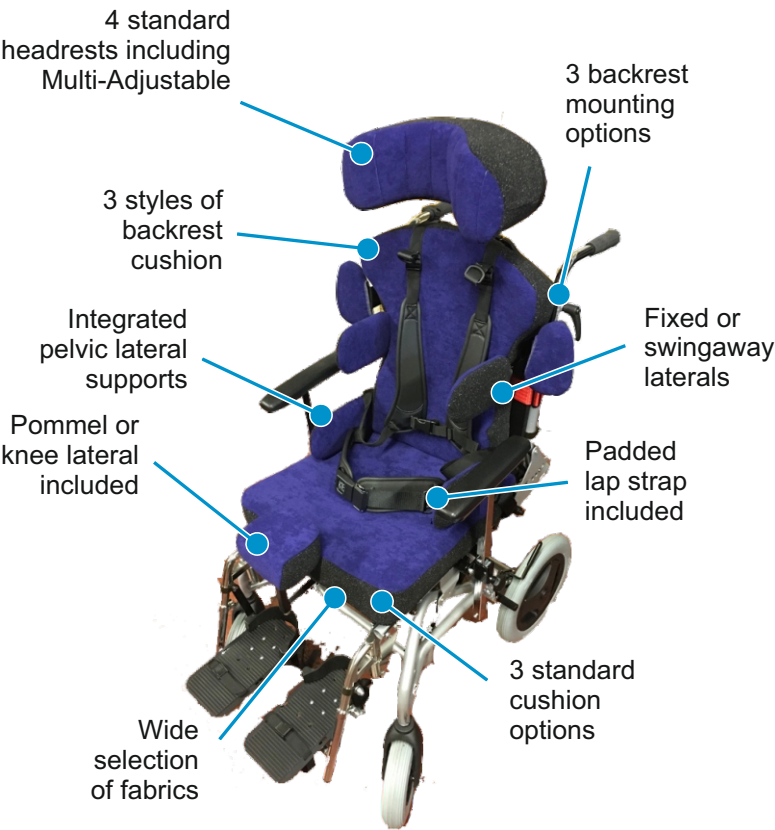

Key Features

- Select, specify or customise
- Large range of standard options
- Fits a wide range of standard wheelchairs
- Wheelchair interfacing included in
- Transportable
- 4 week lead time
- Competitive pricing
- Adjustable for growth

Order Process

We’ve worked hard to make the ordering process simple, while giving a range of highly-configurable options. To order:

- Simply specify the client measurements and wheelbase, select the components you require and we will do the rest. We will determine the optimum sizes for the system to suit your client.
- Customise the system further by specifying sizes of components on the prescription form
- Specify custom sizes for components where required
- Specify a complete custom build of one or more components by providing a drawing.
