## SAFETY BUCKLE SINGLE PULL

The strong safety buckle used on the centre release lap straps can cope with the heaviest of users. We now have a 1" Safety Buckle.

## SIDE RELEASE SINGLE PULL

This high quality side-release buckle offers a cost effective and lightweight option to our standard safety buckle.

## SIDE RELEASE DUAL PULL

Dual pull offers additional positioning options with webbing adjustment on both the left and right.

## Free Fitting Kits Now Available

A 'frame' fitting kit is now available free of charge for all lap straps and harnesses. Each kit contains 22mm and 25mm rubber-lined P-clips and fixings. Please request Part No. A44/50 free of charge. Other sizes of P-clip fittings are also available.

## Bandido Harness

Where better load distribution and direct influence on the sternum is important, this new harness could be the solution. The wide pads provide support over a larger area; the rigid central plastic insert facilitates point control on the sternum.

Size	Centreline Length	Front Pull	Top Pull	Rear Pull
XS	28.5cm	A70P	A72P	A74P
S	35cm	A70R	A72R	A74R

## Heavy Duty Harnesses

Where the ultimate in strength is a must, our reinforced option will perform. The front face of the harness is covered with a vinyl that removes the dynamic element and ensures the strength is maximised. This option is available in all our harnesses, and at no extra cost.

All of our harnesses are available with a Heavy Duty Option. Please just add the suffix 'HD' to the relevant Part Number when ordering. For example, to order a Medium Heavy Duty Front Pull Harness, use Part Number A10SHD. All Heavy Duty harnesses are priced the same as the standard version.
